

Compact²

The latest C Range Air Curtain

The greatest amount of cutting edge air-curtain technology for **the best value.**

That's **Thermoscreens.**

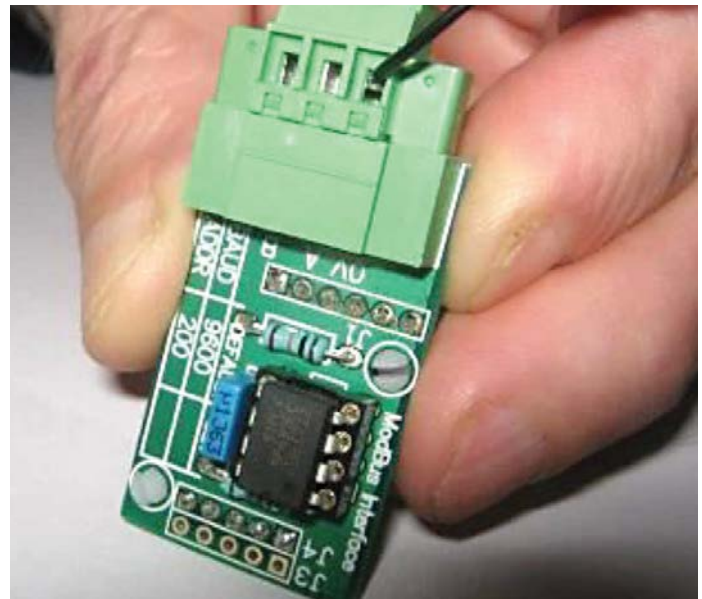

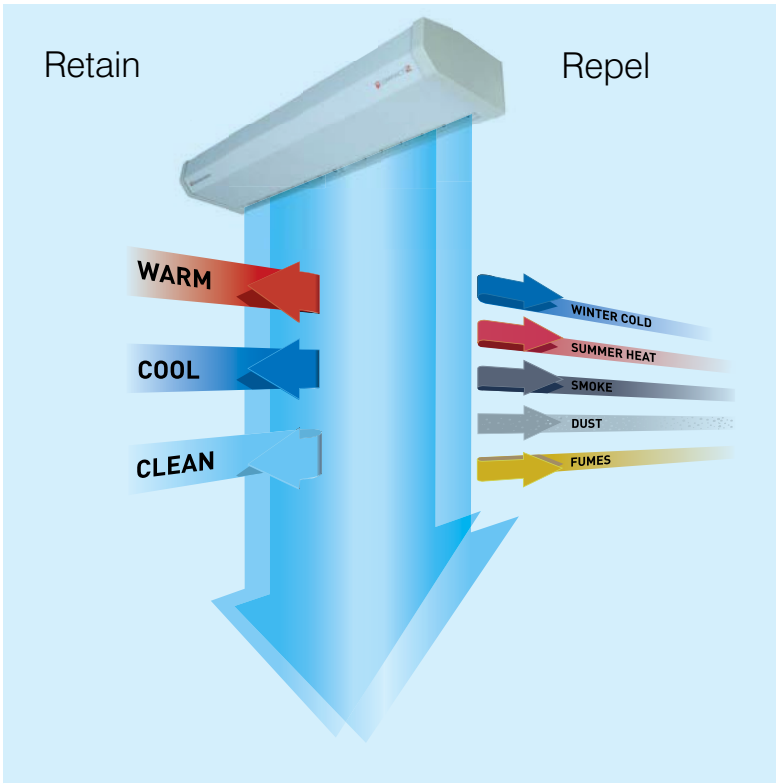

thermoscreens®

Thermomonic by design

Not only does the **Compact-2** look good, its enhanced technology makes it a more efficient choice, minimises noise levels and offers both outdoor temperature adjustment and full BMS integration options.

- Increased efficiency for lower running costs.
- Lower noise levels from twisted blade technology and above inlet orientation.
- Air volume flow rates maintained.
- Improved swivel angle of the discharge grille.
- BMS integration with ECObus control options.
- Outdoor temperature adjustment options.

Thermonomic in style

Both the surface mounted and recessed units complement modern interiors with their sleek styling. Its easy-to-install design also lowers noise, hides the inlet grille from view and allows easier access for maintenance.

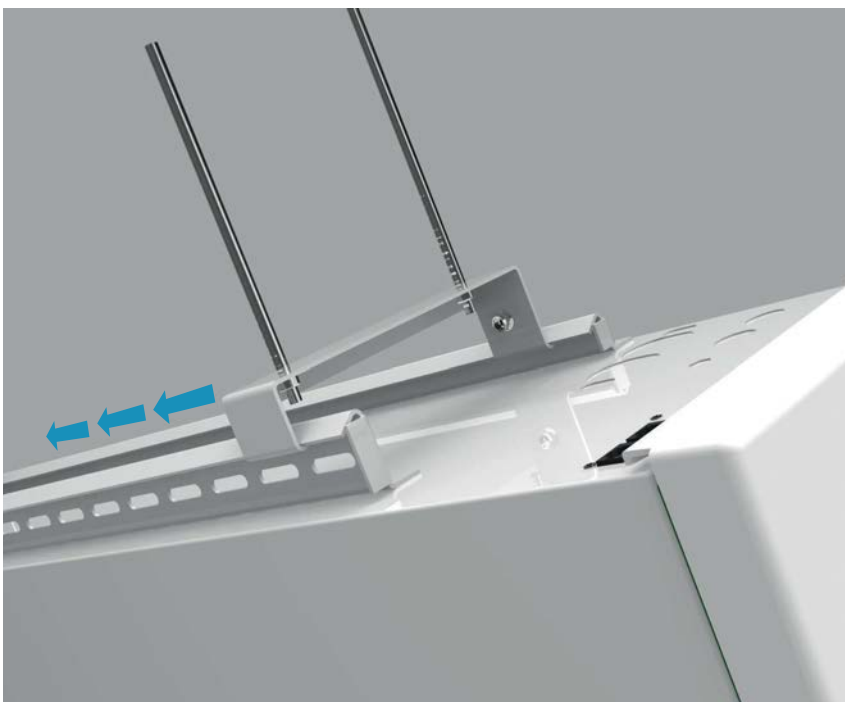

- Sleek, modern styling.
- Easy-install hanging system.
- Inlet air grille to be concealed from view.
- Quicker access to internal components for lower maintenance costs.
- Improved design for larger cable sizes and easier use terminals.
- Removal end caps for easier access to internal components and inspect the valve.

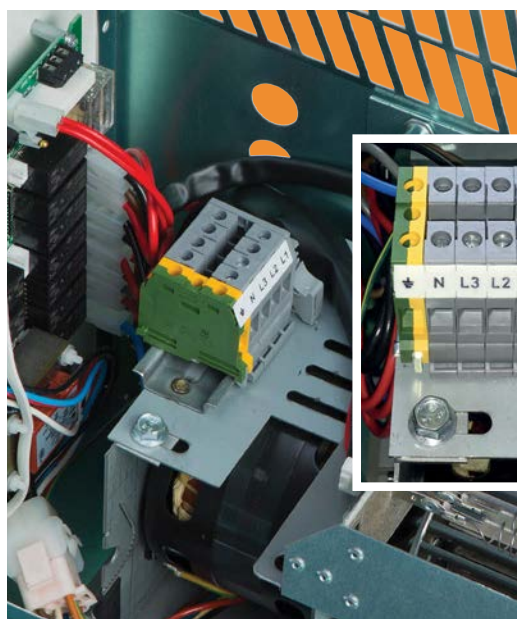

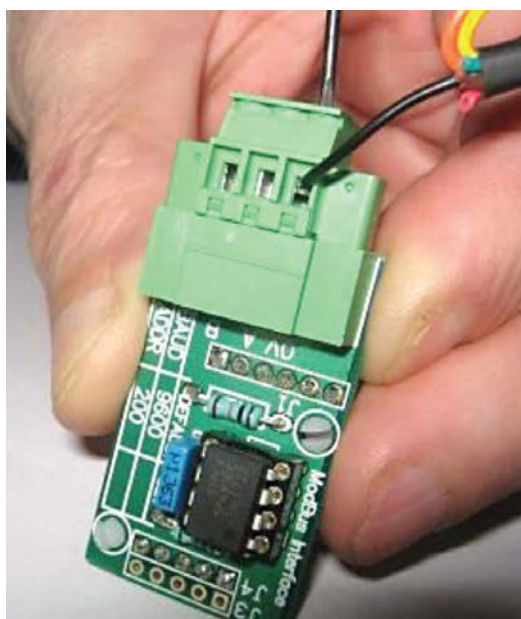

Thermonomic flexibility

Flexibility comes as standard with its fully adjustable rail hanging system, mounting options, sizes to fit doors of up to 2.5m in a single unit as well as a choice of remote controllers.

- Recessed and surface mounted options.
- Additional single unit available for wider doors up to 2.5m.
- Choice of 3 remote controllers: Ecopower, Ecopower plus and Ecopower touch.
- Quicker and more flexible fit with an easy adjustable rail hanging system.
- Fast fix wall hanging system for easily alteration and removal.
- Plug and play control connections (RJ414).
- Outdoor temperature adjustment and BMS integration options.

Why fit a Thermoscreens air curtain?

Established Brand

Pioneers and market leading manufacturers of high quality air curtain solutions, Thermoscreens have an established and well respected reputation worldwide.

Thermoscreens produce air curtains for retail, commercial, public sector buildings, architectural, industrial and refrigerated environments.

Ease of Installation

Air curtains are not only easy to install but also easy to maintain through their serviceable life. A simple and cost effective solution for a comfortable environment.

Comfort

Air curtains help provide the perfect interior environment whether warm, cool or ambient.

Energy Saving

Air curtains over open doors promote significant energy savings.

Open Door Policy

Air curtains promote open door trading in retail outlets, providing uninterrupted access for passing trade.

Protection

Air curtains help to ensure a clean and healthy environment, repelling exhaust gas, dust, smoke, noxious odours and insects.
